

New Coronavirus Infectious Disease Infection Prevention Guidelines

This event is based on the "new lifestyle" indicated by the country and the "new Hokkaido style" advocated by Hokkaido.

This project will be implemented, and the operation method will be decided after consultation with Sapporo City officials and the implementing body.

Clock Tower Bus [Measures to prevent the spread of new coronavirus infection]

Enacted June 1, 2020 / Revised April 23, 2021

We declare that we will comply with all of the following in order to prevent the spread of new coronavirus infection.

① Avoid "three Cs".

- Ventilate the inside of the bus at all times. (Air is constantly replaced every 5 minutes)
- We will ensure the social distancing of the seat as much as possible.
- Empty your senses while riding.

② We will take measures to prevent infection.

- Construction of "antivirus coating" inside the bus
- Borrowing a mask and adhering to hand washing
- Hand sanitizer when boarding the bus
- Spraying disinfectant on the bus as appropriate
- Installation of "splash prevention partitions" for bus seats

③ We maintain facilities for safety.

- Disinfectant installed on the bus
- Thermometers are installed on the bus and in the office (body temperature is measured during roll call)
- A protective partition is installed behind the driver's seat
- Appropriate use of ozone deodorizer
